

Miniature Stainless Steel Vertical Float Switches Series: FS-410

Series FS-410 Miniature Stainless Steel Vertical Float Switches are proof that excellence comes in small packages. Their compact size -- less than 2.35" from top of threads to end of stem -- all stainless steel wetted materials, and user-reversible switch orientation, make them any easy choice for OEM, water and wastewater, and chemical applications. All Series FS-410s carry NSF certifications, and Series FS-410-S switches are CSA Explosion Proof.
